

# Thai Kingdom Thai it you'll like it!

---

## Introduction

Thai Kingdom is a great environment to have a family gathering, a place to bring the kids during the week, and also a romantic night out with your spouse. Our slogan is to express the fact that although Thai food is a totally different experience than what people are used to, in most cases when you try it you instantly fall in love. Our mission is to create an all-around great restaurant in the small town of Belle River that everyone will enjoy. We hope to add some culture and creativity to the community.

## About Thai Kingdom

Our restaurant will be an original Thai restaurant that will serve all of the classics. The grand opening will be on August 4th, with the invitational pre grand opening on July 31<sup>st</sup>. To be easily accessible to all of our guests, we offer takeout, family dining, and an additional room for couples on date night.

## Our Location

Thai kingdom is conveniently located in the heart of Belle River, making it accessible to all. You can find us at 467 Notre Dame. We chose this location because in the down town Belle River, we were lacking a nice eat in restaurant. We hope to accomplish filling in that empty space.

## Our Customers

We plan to satisfy people of all ages craving for Thai food. We offer two different menus, one for our grown up consumers, and one for our younger crowd. We do hope that our target audience will become the couples who just need a night away from home, to just relax, and enjoy some great food.

## More Thai?

Since the town of Belle River is so small, we are the only one of our kind, within 30 minutes. We want to make sure that our reputation will make you want to come back. Knowing that we are the only Thai restaurant in the area, we strive to live up to your expectations.

## Our Deals

To keep you coming back, we have many promotional deals, and specials, all the time. On your birthday you eat free. Every Wednesday kids eat free. We will have monthly promotions, as well as daily specials.
